O. T. GUNNING, Clerk. Me Arthur, Nov. 17, 1854.

A SEW and singularly successful remedy for the A cure of all Billious diseases — Costiveness. Indigestion. Jaundice, Propsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflaumations, Headache, Pains in the Breast, Side, Pack, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or sess required, and much sideness and suffering might be prevented, if a harmless but effectual Catharite were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Ellious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public heaith, and this Fill has been perfected with consummate skill to meet that demand. An extensive trail of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspiction of untruth.

Among the many eminent gentlomen who have testified in favor of these Fills, we may mention:

DR. A. A. HAVES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have ne mysteries.

The composition of my preparations is laid open The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Peutoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-inon Physicians have declared the same thing of my Pills and even more configurations of the same in the promy Pills, and even more confidently, and are mil-ing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscora to purify the blood and athuelats it

into healthy action—remove the observations of the stomach, bewels, liver, and other organs of the body, restoring their inegular action to health, and by correcting, wherever they exist, such duranga-ments as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from

their use in any quantity.
